

Steps to get a Sodexo Branded Service at your location.

It's as easy as...

1.

CALL YOUR DIVISION MARKETING SUPPORT

Tell them you want to deploy a Sodexo branded service and they can assist you with starting the process. Also refer to the Frequently Asked Questions resource on the Culinary Solutions homepage of Sodexo_Net.

2.

SALES AND BUILD OUT MATERIALS

Use the resources on Sodexo_Net Culinary Solutions homepage to help you understand brand specifications and present to key stakeholders for agreement (Sales Presentation, Deployment Sheet and Build Book).

3.

PARTNERSHIP AGREEMENT

The agreement outlines general processes and gives you an idea of costs involved for start-up. Upon submitting this form, you will be given access to the eManual site where the brand support resources are housed. Review, sign and submit the form.

4.

SITE EVALUATION AND DESIGN

Use the deployment planning guide that is available on the eManual site for key steps to planning for design, construction and opening your brand. For approval of the build-out design contact the specified vendor for that branded service.

5.

INSTALLATION AND SET-UP

Use the GearBox resources on the eManuals site to understand all the actions that need to be taken to successfully install and open your branded service.

6.

TRAINING

For branded services that have Centers of Excellence, plan to send a minimum of two designated employees to a Center of Excellence for a 3-5 day training class and they will be prepared to train your entire staff. Other branded services take advantage of the training resources provided on eManual site to perform staff training on site.
